

A map showing a geographical area with a light beige background. A large blue river flows vertically through the center. To the right of the river, a yellow dotted line follows a path. Several blue irregular shapes represent lakes or ponds. Thin grey lines indicate boundaries or roads. Two locations are labeled 'Morales': one with a red dot on the left side of the river, and another with a small square icon on the right side of the river, near the yellow dotted line.
