

Macuro (Venezuela)

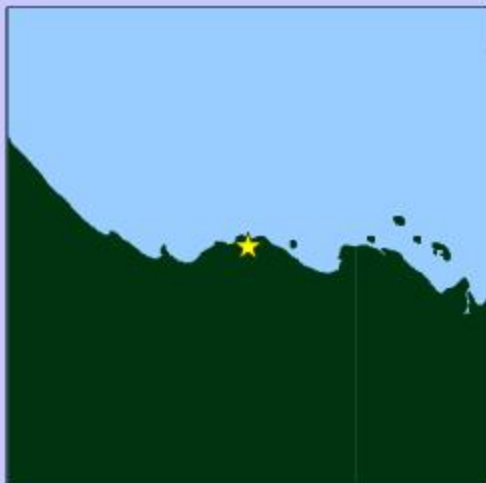

Users Rating 4/5: ★★★★★

Type: **beach**

Reliability: **fairly consistent**

Best Swell: **NE**

Offshore Wind: **SSW**

Macuro in **Zona del Centro** is an exposed beach break that has fairly consistent surf. Winter is the best time of year for surfing here. Ideal winds are from the south southwest. Waves just as likely from local windswells as from distant groundswells and the ideal swell direction is from the northeast. The beach break offers both left and right hand waves. Good surf at all stages of the tide. Unlikely to be too crowded, even when the surf is up. Watch out for coral and sharks.
