

Caridad (Philippines)

Users Rating 2/5: ★★☆☆☆

Type: **reef**

Reliability: **consistent**

Best Swell: **NE**

Offshore Wind: **SW**

Caridad in Siargao Islands is an exposed reef break that has consistent surf. Autumn and winter are the favoured times of year for waves. The best wind direction is from the southwest. Usually gets local windswells, but groundswells do happen and the optimum wave angle is from the northeast. Rarely crowded here. Watch out for rocks.
