קנה הסרה 10:000

7910-20 11/8 73321-120

THE 1987-1988 season was the first in which the total number of birds was less than the number of birds that were banded. This was due to the fact that the number of birds that were banded was 1,000, while the number of birds that were observed was 900.
